

Unique headgear for kids

since 1990

HOW IT STARTED

The Jamiks brand was born in 1990 as the fulfillment of childhood dreams: to design and produce clothes for children. At the beginning of its activity, the company created children's sweaters. Today, we specialized in designing and producing hats and other accessories for newborns, kids and adults.

Our passion for children's fashion, the use of innate abilities and the attention to details make each JAMIKS product distinguished by high quality, unique design and a guarantee of comfort of using. Thanks to that, our products are nowadays exported to many countries around the world.,

100% FAMILY COMPANY

We are a family company, based in small town Jarocin, in Poland. As a joint work of parents and a daughter, the wide range experience is combined with fresh ideas. Our team is composed of women (there are only 3 men in our crew), who are very talented, enthusiastic, full of passion. We believe that our success lies in building trust-based society.

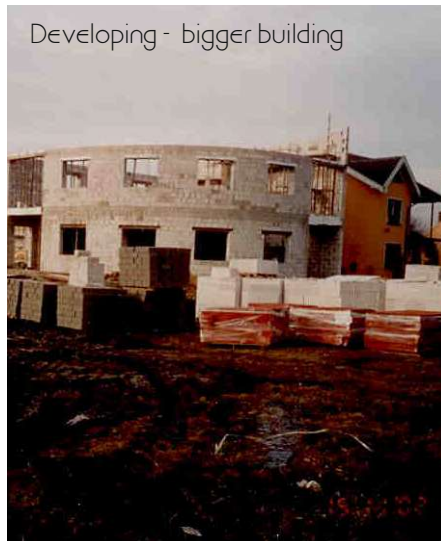

Best professionals, talented team and new technologies create our unique and high quality products.
